

Family Harbor House

A project of Midcoast Maine Homeless Coalition

Volunteer Application

Family Harbor House (“FHH”) is a transitional housing project helping local families who are experiencing homelessness. The building’s large private family rooms, full kitchen, shared bathrooms, and dining/recreation area can accommodate 3 to 4 families. **FHH** offers a place of respite and renewal for parents and children who have been living through times of crisis.

Management of the project is overseen by the Board of Directors and hired staff, but **Family Harbor House** depends upon compassionate people, like you, and volunteers are the **heart** of this project – providing homeless families with safety, comfort and the opportunity for a better life.

Anyone can volunteer if they are willing to support the mission of **Family Harbor House** - “to help families stabilize their lives so they can then relocate to affordable permanent housing in the community.”

To volunteer with **Family Harbor House**, please complete this application form, plus an additional form which authorizes a standard criminal background check. **Family Harbor House** serves vulnerable populations, including children living in the program’s residential setting, and background reviews protect both the families and the volunteers.

After an initial screening process, you will be contacted to join with other new volunteers in a training session to learn about the **Family Harbor House** operational policies and procedures.

Please complete and Please Print or type:

Name _____ Date of Birth _____

Address _____ City/State/Zip. _____
